

Greenings International has enjoyed 29 years of trusted partnerships with leading corporates

Greenings, a world leader in sourcing senior level executive talent for card payment and Fintech clients, is a first-time Team Partner in the Clipper 2017-18 Race.

Founded in 1999 by Andrew Greening, a pioneer in international executive resourcing, Greenings International has enjoyed 29 years of trusted, cross-border partnerships with some of the world's leading corporates, private equity, regulators and governments.

Greenings has partnered with the Clipper Race since 2007, running The Cards & Payments Industry Regatta on the Solent. This event has seen leaders from the world of payments, including Ai Corp, American Express, CyberSource, Elavon, EVO, FIS, Global Blue, Global Payments, Miura, Oak Capital, PrePay Solutions, Retail Decisions, UATP, Verifone and WorldPay, all compete in the annual industry series.

In support of the team's race participation, Greenings plans to organise cards and payments-specific events in key race destinations including Cape Town, Sydney, Seattle and New York, whilst also bringing local clients to spectate at Race Start and Finish events in Liverpool and Derry-Londonderry.

The aim of the partnership, which will be centred around the company's 'Value Through People' ethos, will be to connect executives and businesses around the Clipper Race's global route, providing thought leadership on executive talent and development in its rapidly changing and highly innovative sector.
